## Lead Pedal Radio Marketing

Welcome to the new artist marketing service with Lead Pedal Radio. We have always tried to support new musicians and feel we have the skills and experience to help move your artistic career forward.

### *Marketing vs Management*

We are helping artists marketing themselves, not managing them. The artist owns all rights to content created and we take no royalties from sales.

### *Contact US*

Website: [www.LeadPedalRadio.com](http://www.LeadPedalRadio.com)

### How Does it Work?

Once you decide to move forward with our marketing service we will meet with you to discuss your marketing goals. A marketing plan will be created and depending on the package chosen content and promotion will be designed based on that plan. We require at least a three month commitment on all plans.

One month deposit is required to start the program and the artist will be billed at the agreed intervals moving forward. HST will be added to all pricing.

### Who Do We Work With?

- Artists affiliated with the trucking industry through music or career, as our brand is directly related to that industry.
- Artists in the genres of country, rock, and older styled music. Our audience is older in age but we market to all in the trucking industry
- Artists that have music based on the road ,cars, trucks, life on the road, or the open highway.
